

# Idiqlat - Announcement

We are very pleased to announce a new release of *Idiqlat*, a font for the East Syriac style of the Syriac script.

## Changes

This release includes the following changes for this version:

- Moved the lookup in Contextual Alternates (calt) to Required Contextual Alternates (rclt)

This change allows the font to render the correct forms of *kaph*, *mim*, and *nun* in applications which turn off the Contextual Alternates feature.

Both desktop and web fonts are provided in a single, all-platforms package on the [Download page](#).

This guide is from the [Idiqlat project](#) version 2.1 and is copyright © 2025-2026 SIL Global.
